Hollis ter, pastor of the Presbyterian church, in the presence of quite a company of relatives and friends. The dinner was served by the ladies of the Presbyterian church. The happy couple has gone on an eastern trip, taking with them the best wishes of many friends,

-Dublin grange met Tuesday evening but on account of the inclement weather not many were present. No business was taken up but a most entertaining program was presented consisting of choruses by the young girls of the grange. There was a humorous reading, "Seventeen," by Margaret Stratford, current events by Eva Corll, a vocal solo by Mrs. Stevens, and a paper on "Market Gardening" by Mrs. Geo. Late. An interesting feature of the program was a fine discourse by Mrs. Stevens of Findlay, O., state or-ganizer of the W. C. T. U.

-A gasoline stove exploded in the home of C. H. Hine, a mile and a quar-ter west of the village, Monday even-ing and only by dint of hard work on the part of neighbors and the Canfield volunteer fire department was the residence saved from destruction. Mrs. Hine found it necessary to replenish the gasolice supply in the stove, but before doing so turned out the blaze and took the precaution to turn a pan over the heated portion of the stove. While she was pouring gasoline into the reservoir the explosion occurred, throwing the fluid over her clothing, and instantly she was a blazing torch. She retained her presence of mind and Mrs. W. L. Snook were recent Alquickly secured a woolen garment which she wrapped about herself, smothering the flames, but not until she was badly burned about the limbs and back. Despite this fact she went to the telephone and summoned help. While suffering greatly from the burns she is reported to be getting along very well. The rear of the house was badly damaged, the kitchen being gutted, and in nearly every room on the first floor the paint was blistered on the woodwork and furniture, so intense was the heat. The fire fighters were nearly suffocated by smoke but refused to quit until the flames were extinguished. The property was insured in the Lordsjown Mutual Insurance Co woodwork and furniture, so intense was the heat. The fire fighters were nearly suffocated by smoke but refused to quit until the flames were extinguished. The property was insured in the Lordstown Mutual Insurance Co. and the loss, which is considerable, was promptly adjusted to the satisfaction of Mr. Hine.

Card of Thanks.

We desire through the Dispatch to thank friends and neighbors for the valuable assistance given in saving our home which was threatened with destruction by fire Tuesday night; and we especially thank the Canfield volunteer fire department for its prompt response to the alarm and its efficient work.

IS NOW RESIDING IN TEXAS Editor Dispatch :- As your paper enjoys a large circulation in Green and adjoining townships, it may be interesting to many readers to read a brief sketch of Andrew Jackson Callahan, residing in Ingram, Texas. He was born in 1837, one mile north of Greenford, the son of N. P., and Catheine Callahan, pioneers of Green township. In 1857 Jack, as he was familiarly called, left the parental roof and vent to Kentucky where he remained a year, going from there to Kansas where he stayed six months and then joined a caravan traveling overland to San Francisco, Cal., walking the entire distance to his destination from Salt Lake City. In 1861, at the outbreak of the civil war, he joined a cavalry regi-ment organized in San Francisco. The regiment shortly afterward was ordered with two other regiments to southern Texas, traveling the entire distance on horseback. At the close of the of the war he returned to his home in Greenford, leaving ten days later for Missouri, finally drifting to southern Texas and pre-empting a section of land near San Antonia, where he married and reared a family of nine children, three sons and six daughters, all of whom are living. He also has 38 grandchildren and four great-granden. He enjoys good health and now visiting his chlidren who reside in different parts of Texas. C.

NEVADA AS "GOLDEN STATE"

From Reports, It Is Not at All Improbable She May Become Thus Known.

When they began to dig out silver by the ton from the Comstock group mines, Nevada lost its original name of "the Sagebrush State," and became known to the whole world as the "Silver State."

But recent developments in the Divide district seem to indicate another change of name, for they do say that the gold is so thick just a little under the surface that the owners of the mines refuse to dig lest they be ruined by the excess profits tax. They just take out a shovelful from time to time to pay living expenses, and sit tight over the hole where they took it out till they need a little more. Possibly, also, these mine owners are influenced by patriotism, as not wishing to disturb values by flooding the world with gold and thus adding to the economic confusion. California has hitherto taken pride in calling itself the Golden state, but even in Nevada they are getting ready to demand the belt and title and say they

are going to get it. And with all due allowance for newborn enthusiasm and for the plcturesque way in which prosperous miners are wont to express themselves, if a tenth of what is claimed is true-and it may be-we may expect the people of Nevada to change from the most loyal of silverites te the most determined and irreconcilable gold bugs. Circumstances do alter cases. That they have found a lot of gold is certain.-Sloux Falls Press.

Tribute to Porridge.

A wonderful old man is Mr. James Nicol, who has just celebrated his one hundredth birthday in the Kentish village where he lives, and is still going strong. Mr. Nicol, who is a Scot, was born in Tullibody, Clackmannanshire, and joined the Seventyfourth Highlanders during the reign of William IV, later taking part in suppressing the Indian mutiny. He can do the Highland fling even yet, he says, and claims that the recipe for long life is porridge when one is young. He did not know the taste of meat or tea till he was over seventeen. Mr. Nicol married his second wife when he was ninety-three.

HE WALKS AROUND ISLAND

New Jersey Man Takes Stroll Around Porte Rice and Is Glad He Did.

San Juan, P. R .- M. K. McCosh of East Orange, N. J., strolled into San Juan a few days ago after a tramp around the entire island, which took him three weeks, feeling fine and declaring that the well-meaning friends who had warned him he would not find any food fit to eat in the small hotels had been sadly misinformed. He found the hostelries in the small places clean and the food good, and he said the object of his trip, to recuperate from the effects of an attack of ptomaine poisoning and a siege of the influenza, had been realized. He came here intending to make the return trip on the same steamer, but he found the sea voyage had not helped him as much as he had hoped and he decided to stay over and make his long tramp. Now he is glad he did-it.

EX-KAISER NOW PAYS TAXES

For First Time in His Life Former Emperor Contributes to Public Funds.

Amerongen.—The former German emperor for the first time in his life has paid taxes, the municipality of Amerongen having levied the ordinary taxation after examining and estimating William Hohenzollern's fortune.

For the first three months of this year the sum levied amounts to 12,-000 guilder. (A guilder normally amounts to about 40 cents.) This sum, however, was merely for local taxation. An income tax will be levied separately by the government.

The former emperor was relieved from payment for the first period of his sojourn, as that fell within the previous year. All foreigners who remain three months in the country are liable for the payment of taxes, the same as natives of Holland.

Potatoes Without Vines Are Grown by Girl

Kutztown, Pa.-Lizzie, daughter of Jefferson Hoch, discovered in their potato patch that a number of seed potatoes falled to produce any vines on top of the soil. She was surprised to find the seed potatoes in every hill had clustered around good-sized new potatoes, that the entire vitality of the seed potato was transferred to the new ones, and that there was no vine growth above the surface of the potato hills. The mother potato was still in the hill, but had given up its substance to the young potatoes, which were already so well matured that they could be used for a meal.
